Name of authorized signatory:		Role/function:		
Contact person:		Role/function:		
Email:		Telephone number:		

## Description type of integrated health and care activities to be developed and/or implemented

Describe the type of conditions your organization aims to establish to implement and/or improve distance spanning services for integrated health and care possible? Describe which organizations (Regions/municipalities) you aim to work together with to secure co-governance with for joint service provision? (max. 1500 characters with spaces)

*Priority will be given to applicants that can embrace the following in their descriptions:*

- *Articulate how their intended development will help to empower the targeted citizens, for example improve the possibilities for prolonged and /or independent life.*
- *Why this development is good from the citizens point of view and reflect on the expected value to be created for the citizens, and possibly how the value impact can be measures.*
- *Projects that consider the role of digital and distance-spanning solutions and innovative health and care service design with the aim to attract and retain health and care professionals and improve the relationship with users will be favoured.*

Describe the organization(s) readiness level for Integrated healthcare and care through co-governance (max 1000 characters with spaces)

*Priority will be given to applicants (region/county/collaborating municipalities) which have:*

- *Formal decision or similar mandate to initiate joint service development based on co-governance of both healthcare and care.*
  - *The ambition shall be to eliminate/reduce the distance between the citizen and the service provider, through joint use of distance spanning technologies or other solutions providing the same effect.*
- *Alternatively, project proposals can be accepted that aim to secure co-governance between different entities involved in a patient journey where several professional categories are involved.*
  - *The ambition remains to eliminate/reduce the distance between the citizen and the service provider, through joint use of distance spanning technologies or other solutions providing the same effect.*

Describe the strategies and frameworks applied to secure service innovation, and the applied methodology main steps of importance (max 750 characters with spaces):

- *Applicants shall use a framework with a strong emphasis on insight and anchoring stages in the service innovation process, and in particular use of "Norwegian Vejkart for tjenesteinnovasjon", in English "Roadmap for service innovation".*

Describe how your organization will build trust between different stakeholders, especially how you work with communication and knowledge sharing as well as how you secure shared and common goals: (max 1000 characters with spaces)

The applicants are requested to:

- *familiar themselves with the iHAC publication "Integrated Healthcare and Care through distance spanning solutions – for increased service accessibility"*
- *describe how they work in relation to the described components in the theoretical framework in the publication; Communication and Knowledge sharing, Shared and Common goal, Trust.*

Describe the geographical challenges and possible opportunities for your area related to integrated Healthcare and Care through distance spanning solutions? (max 750 characters with spaces)

- *Priority will be given to applicants in sparsely populated areas, and applicants that fight with similar geographical challenges such as long distances = long time to travel to services and insularity.*

Horizontal principles:

- How will gender equality among workers and users of services be affected by service provision through integrated healthcare and care through distance spanning services? (max 750 characters with spaces)
- In addition, the applicant is expected to reflect upon how the principle of equity between citizens will be affected by the intended development, and possible measures to secure better equity between citizens? (max 750 characters with spaces)

Please indicate below, by ticking the boxes, which activities you apply funds for and make a short description on what to do, when and where to carry out the activities:
